

(C15TS) C15 Translations Specialist Certification Preparation

Course Description:

The C15TS: C15 Translations Specialist Preparation course is a boot camp style event designed to provide a comprehensive review of all the material needed to fully prepare candidates to take the Genband C15 Translations Specialist Certification Examination.

Attendance of the course includes access to the C15TS Certification Exam

Intended Audience:

The course is for individuals with prior C15 product knowledge, experience and/or training who are looking to complete the Genband C15 Translations Specialist Certification.

Course Content:

The major components of this preparation course are derived from the Genband C1535 C15 Translations course. The course will cover the following key topics:

- Translators and Data Blocks
- Command Line Interface for modifying translations
- Equal Access Carriers
- Porting Numbers

Objectives:

Upon completion of this course, delegates will be prepared to take the C15 Translations Specialist Certification Examination.

Prerequisite courses:

Attendees are advised to have successfully completed C1511: C15 Overview, and C1535 C15 Translations courses before attending this boot camp or attempting the C15 Translations Specialist Certification Examination

Prerequisite skills:

Experience with the GENBAND C15 product.

Course Length and Delivery Method:

2 Days – Instructor led
